**THE MALAYSIAN SOCIETY FOR TRANSPARENCY AND INTEGRITY****REPORT OF THE EXECUTIVE COMMITTEE**

We, the Executive Committee, responsible for the financial statements of **THE MALAYSIAN SOCIETY FOR TRANSPARENCY AND INTEGRITY**, Registration No: PPM-007-10-28081999, hereby state that to the best of our knowledge and belief: -

- a) The accounting records produced together with the vouchers, information and explanations given to the auditors, **MUSTAPHARAJ PLT** constitute a true record of all transactions, assets and liabilities of the **SOCIETY** for the financial year ended 31 December 2022 and;
- b) The Statement of Financial Position, Statement of Comprehensive Income, Statement of General Funds, and Statement of Cash Flows together with the Notes to the Financial Statements are properly drawn up in accordance with the approved accounting standards by the Committee and show a true and fair view of the state of affairs of the **SOCIETY** as at 31 December 2022 and of the results of the operations for the financial year ended on that date.

Signed on behalf of the Executive Committee

**DR. MUHAMMAD MOHAN KITTU BIN ABDULLAH**  
President

**RAYMON RAM**  
Secretary General

**DR. ABADAN JASMON**  
Treasurer

Dated: 30/1/2023

**THE MALAYSIAN SOCIETY FOR TRANSPARENCY AND INTEGRITY**

**INDEPENDENT AUDITORS' REPORT**

We have audited the financial statements of the **THE MALAYSIAN SOCIETY FOR TRANSPARENCY AND INTEGRITY**. The preparation of the financial statements is the responsibility of the Executive Committee. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with the approved Standards of Auditing in Malaysia. These standards require that we plan and perform the audit to obtain all the information and explanations which we consider necessary to provide us with evidence to give reasonable assurance that the financial statements are free of material misstatement. The audit also includes an assessment of the accounting principles used and significant estimates made by the management as well as evaluating the overall adequacy of the presentation of information in the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the Statement of Financial Position, Statement of Comprehensive Income, Statement of General Funds, and Statement of Cash Flows together with the Notes, have been properly prepared in accordance with the approved accounting standards by the Committee and show a true and fair view of the state of affairs of the **SOCIETY** at 31 December 2022 and of the results of the operations for the financial year ended on that date.

**THE MALAYSIAN SOCIETY FOR TRANSPARENCY AND INTEGRITY****NOTES TO THE FINANCIAL STATEMENTS: 31 DECEMBER 2022****1. GENERAL INFORMATION**

The principal activity of the Society is to promote transparency and integrity.

The Society is an entity registered with the Registrar of Societies.

The address of the registered office and principal place of business of the Society is as follows:

319, Block A,  
Kelana Centre Point,  
Jalan SS7/19, Kelana Jaya,  
47301 Petaling Jaya,  
Selangor.

The financial statements are reported in Ringgit Malaysia (RM).

**2. BASIS OF PREPARATION**

The financial statements of the Society have been properly prepared on a going concern basis under the historical cost convention and comply with the provisions of the Societies Act 1966, and in accordance with Malaysian Private Entities Reporting Standards ("MPERS") issued by the Malaysian Accounting Standards Board ("MASB").

**3. SIGNIFICANT ACCOUNTING POLICIES****3.1 Property, Plant and Equipment and Depreciation**

Property, Plant and Equipment are stated at cost less accumulated depreciation. Provision for depreciation is calculated on the straight-line basis so as to write off the cost of the assets over their anticipated useful lives. The principal annual rates of depreciation used are as follows:

Description	%
Furniture and Fittings	10
Office Equipment	10
Computer Equipment	25

### **3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **3.2. Trade and Other Receivables**

Trade and other receivables are carried out at the invoiced amount less an allowance for doubtful debts. Known bad debts are written-off and specific allowance is made for any debts considered to be doubtful in collection.

#### **3.3 Projects / Programmes funding**

The Society carries out projects or programmes and recognizes the funding or contributions from donors for these projects or programmes as payables and the corresponding expenditures for the projects or programmes as receivables. In the event there is a surplus / deficit from the funding, it will be recognised as income /expense.

#### **3.4 Liabilities and Provisions**

Payables and accruals are stated at cost.

Provisions for liabilities are recognized when the Society has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the time value of money is material, the amount of the provision is the present value of the expenditure expected to be required to settle the obligation.

#### **3.5 Financial Instruments**

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

##### **(a) Initial recognition and measurement**

On initial recognition, a financial asset or a financial liability is measured at the transaction price, including transaction costs. For a financial asset or a financial liability that is subsequently measured at fair value through income statement, transaction costs are expensed to income statement when incurred.

A financial asset or a financial liability (including derivative instruments) is recognised only when the entity becomes a party to the contractual provisions of the instrument.

An arrangement constitutes a financing transaction, if payment is deferred beyond normal business terms. Under a financing transaction, a financial asset or a financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument as determined at initial recognition.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.5 Financial Instruments (cont'd)

##### (b) Subsequent measurement (cont'd)

Derivative financial instruments (other than derivatives designated as a hedging instrument) are measured at fair values and changes in fair values are recognised in income statement.

Debt instruments are measured at amortised cost using the effective interest method. Debt instruments that are classified as current assets or current liabilities are measured at the undiscounted amount of the cash or other consideration expected to be paid or received, unless the arrangement constitutes, in effect, a financing transaction.

Investments in non-convertible preference shares and non-puttable ordinary or preference shares, that are publicly traded or their fair values can otherwise be measured reliably without undue cost or effort, are measured at fair values with changes in fair values recognised in income statement. All other such investments are measured at cost less impairment.

All financial assets are subject to review for impairment, except for financial assets measured at fair values through income statement.

##### (c) Impairment

At the end of each reporting period, financial assets that are measured at cost or amortised cost are assessed as to whether there is objective evidence of impairment. If there is objective evidence of impairment, an impairment loss is recognised in income statement immediately.

For a financial asset measured at amortised cost, the impairment loss is the difference between the asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If such a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For a financial asset measured at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

If, in a subsequent period, the amount of an impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed in income statement.

### **3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

#### **3.5 Financial Instruments (cont'd)**

##### **(d) Derecognition (cont'd)**

A financial asset is derecognised only when (i) the contractual rights to receive the cash flows from the financial asset expire or are settled; or (ii) the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset, including circumstances when the entity acts only as a collecting agent of the transferee, and retains no significant risks and rewards of ownership of the financial asset or no continuing involvement in the control of the financial asset transferred.

A financial liability is derecognised only when it is extinguished, i.e. when the obligation specified in the contract is discharged, is cancelled or expires. A substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

#### **3.6 Cash and Cash Equivalents**

Cash and cash equivalents consists of cash in hand, balances with banks and short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### **3.7 Taxation**

Current tax liability is recognised for tax payable on taxable profit for the current and past periods. If the amount paid for the current and past periods exceeds the amount payable for those periods, the excess is recognised as a current tax asset. Current tax liability or asset is measured at the amount it expects to pay or recover using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

Deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from: (i) the initial recognition of goodwill; or (ii) the initial recognition of an asset or a liability in a transaction that is not a business combination, and at the time of the transaction, affects neither accounting profit nor taxable profit or tax loss.

Deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or a liability in a transaction that is not a business combination, and at the time of the transaction, affects neither accounting profit nor taxable profit or tax loss.

A deferred tax liability or asset is measured using the tax rates and tax laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which, at the reporting date, the carrying amount of the related assets and liabilities is expected to be recovered or settled.

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.7 Taxation (cont'd)

Deferred tax asset is recognised for all deductible temporary differences arising from investments in subsidiaries, branches and associates and interests in joint ventures, only to the extent that it is probable that: (a) the temporary difference will reverse in the foreseeable future; and (b) taxable profit will be available against which the temporary difference can be utilised.

Deferred tax liability is recognised for all taxable temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint ventures, except to the extent that (a) the parent, investor or venturer is able to control the timing of the reversal of the temporary difference; and (b) it is probable that the temporary difference will not reverse in the foreseeable future. Current or deferred tax assets and liabilities are not discounted.

#### 3.8 Income Recognition

Income is recognised when it is probable that the economic benefits will flow to the Society and when the income can be measured reliably on the following basis:

- (i) Members' contributions are recognised on an accruals basis.
- (ii) Grants are recognised where there is reasonable assurance that the Society will comply with the conditions attaching to them and the grants will be received. Grants are recognised as income on a systematic basis over the periods necessary to match them with the related costs which they are intended to compensate.
- (iii) Donation income is recognised on a receipt basis.
- (iv) Surplus / (Deficit) from projects / programmes funds undertaken are recognised upon proper completion of the projects / programmed.
- (v) Service income from workshop and proposals are recognised upon services rendered.
- (vi) Interest income is recognised on a time proportion basis.

#### 3.9 Employee Benefits

##### *Short Term Employee Benefits*

Wages, salaries, social security contributions, bonuses and non-monetary benefits are accrued in the financial year in which the associated services are rendered by the employees of the Society.

##### *Defined Contribution Plans*

The Society contributes to the Employees Provident Fund (EPF), the national defined contribution plan. The contributions are charged to the income statement in the period to which they relate. Once the contributions have been paid, the Society has no further payment obligations.

#### 4. JUDGEMENTS AND ESTIMATION UNCERTAINTY

The management has made judgements in the process of applying the accounting policies. However, there is no significant effect on the amounts recognised in the financial statements during the year.

The key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

##### *Measurement of provision*

Management evaluates the estimates based on the historical experience and other inputs or assumptions, current developments and future events that are reasonably possible under particular circumstances. A probability-weighted estimate of the outflows required to settle the obligation is used. The actual outcome may differ from the estimates made and this may have a significant effect on the Society's financial position and financial performance.
